

## Environmental Policy

**FCP Fritsch, Chiari & Partner ZT GmbH** carries out its activities in the sphere of:

*“Consulting, expertise and testing, design for structural and civil engineering, infrastructure design, site supervision, technical & financial control and project management. Design, consulting and testing in the area of impact control, measurement, instrumentation and monitoring. Research & development for methods for safety assessment and maintenance management of constructions, infrastructure and industrial assets and measurement methods. Life cycle analysis, sustainability assessments and environmental life cycle assessments of construction projects.”*

The entire company is aware of its impact on the environment and acknowledges its responsibility to integrate and promote environmentally conscious and sustainable action as well as climate protection as central components of its overall management strategy. In this context, the management is guided by the following fundamental principles:

- We are committed to continuously improving the environmental management system embedded in the integrated management system (according to ISO 14001) and to continually optimizing our environmental and climate protection performance. This includes regular audits, constant monitoring of the company's environmental impact and the definition of measurable targets that are in line with this environmental policy.
- We are committed to complying with all requirements of applicable legislation, ISO 14001 and other relevant industry standards and codes, including any future amendments or updates.
- We strive to minimize and optimize the use of natural resources and to contribute to the promotion of sustainability and climate protection. In doing so, we are committed to minimizing the negative environmental impact of our activities and the associated risks, while at the same time enhancing positive environmental impacts and seizing them as opportunities.
- We strive to develop and implement innovative and sustainable solutions in the field of climate protection as part of our KLiNa® initiative. We channel our internal expertise to support clients and partners in a wide range of areas with our future-orientated engineering services.

The management of **FCP Fritsch, Chiari & Partner ZT GmbH** is committed to promoting and sustainably strengthening a pronounced environmental awareness among all employees, partners and clients. The principles formulated in this environmental policy shall be anchored in daily activities and understood, supported and lived by all those involved. In addition, this policy is regularly reviewed and updated to account for possible changes and new requirements.
